

Winter Workshop on Bayesian Biometrics for Forensics

Wednesday 14th of December 2011, room 106

09:00 – 10:00 **An introduction to automatic face recognition using statistical models**
Sébastien Marcel, Idiap Research Institute, Switzerland

10:30 – 11:30 **Calibration of likelihood-ratios in automatic speaker recognition
and its applicability to other forensic technologies**
Niko Brummer, AGNITIO, South Africa

11:30 – 12:30 **Adaptive classifier combination based on signal quality: A Bayesian
perspective**
Norman Poh, University of Surrey, UK

14:00 – 15:00 **The future of automated techniques in forensic science**
Christophe Champod, University of Lausanne, Switzerland

15:30 – 16:30 **Bayesian interpretation of biometric evidence**
Andrzej Drygajlo, EPFL, Switzerland

Project attendees:

Mitchell McLaren, Roy Wallace, Sebastien Marcel, Raymond Veldhuis, Luis Buera, Henk van den Heuvel, Philip Harrison, Peter French, Hugo Van hamme, Erica Gold, Natalie Fecher, Mohamad Hasan Bahari, Julian Fierrez, Abhishek Dutta, Daniel Ramos, Ruifang Wang, Ram Prasad K, Dom Watt, Laurent El Shafey, Paul Foulkes, Pietro Laface, Miranti Indar Mandasari, Didier Meuwly, Rudolf Haraksim, Rahim Saeidi, Tauseef Ali, Vasileios Vasilakakis, Judith Dijk, Anna Mikaelyan
